

2023 Annual UConn Fire Safety Report

This report is prepared in compliance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (i.e., The Clery Act). This report includes the disclosure of certain University fire safety-related policies and procedures, as well as three years of fire statistics. The Clery Act requires the disclosure of statistics for reported fires in on-campus student housing facilities.

UConn's University Safety Division has recently completed renovating the University Safety Building in Storrs to better serve the University community. This renovation has increase training and administrative offices/areas and opened in 2023.

The University of Connecticut (UConn) Storrs and Farmington campuses have a full-time fire department, The University of Connecticut Fire Department (UCFD), which provides fire, rescue and EMS services 24 hours a day, seven days a week. Additional duties performed by fire personnel include inspections and fire prevention activities. Also incorporated within the fire department is the Fire Marshal Unit (FMU). This office is responsible for fire code enforcement for all University buildings and construction projects. The UConn has 76 residence halls on the Storrs campus that house approximately 11,000 students per semester, and two apartment buildings in Stamford CT that houses approximately 350 students per semester.

Fire Reporting (Storrs and Stamford)

Per federal law, UConn is required to annually disclose statistical data on all fires that occur in on-campus student housing facilities.

If a fire occurs in a UConn building, community members should immediately call 911. For the Storrs campus, the UConn Public Safety Answering Point (PSAP) will immediately dispatch the UCFD. For the Stamford campus, the Stamford Fire Department will be dispatched. If a member of the UConn community finds evidence of a fire that has been extinguished, and the person is not sure whether fire department personnel have already responded, the community member should immediately notify the UConn PSAP at the non-emergency number 860-486-4925, to investigate and document the incident.

On-campus Housing Fire Safety Systems (Storrs and Stamford)

All campus housing, apartments, and residence halls have addressable fire alarm systems. The Storrs campus residential housing systems are tied directly to UConn PSAP. At the Stamford campus, these emergency signals are transmitted to the Stamford Fire Department Dispatch. All campus housing, apartments, and residence halls are equipped with fully automatic sprinkler systems which are tied to the fire alarm systems. All systems meet or exceed National Fire Protection Association (NFPA) standards and are maintained according to applicable codes.

University of Connecticut Residence Hall Fire Safety Report

January 1, 2023 through December 31, 2023

Residential Facility Address	Fire Alarm Monitoring Done on Site	Full Fire Sprinkler Suppression System Provided	Smoke Detection/Fire Alarm System Provided	Fire Extinguisher Devices	Evacuation Plans/Placards Provided	Fire Drills Conducted
	<i>Fire Alarm & Sprinkler Flow monitored at the UConn Public Safety (PSEC) unless otherwise noted</i>	<i>Sprinklers in common areas and individual rooms, unless otherwise noted</i>		<i>Fire Extinguisher Devices located as required by the CSFSC</i>		<i>Two drills are performed each year, one in the fall and spring semester.</i>

Notes:

- 1) Mansfield Apartments was not Occupied after 7/1/2022 and demolished in 2022.
- 2) Stamford Apartment Residences, Fire and Sprinkler Flow Alarms are monitored at the City of Stamford Public Safety (PSEC).
- 3) In 2018, a Wet Pipe Sprinkler System was installed in the Kellogg Dairy Barn Bunk Room(residential and common areas only).

Institutional Fire Safety Policies

To help promote a fire-safe campus and ensure the safety of all residents, the University identifies items which students may or may not maintain in their residence hall. The following items are always prohibited in residence halls:

- Candles/Incense
- Open flame appliances
- Hot plates
- Halogen lights
- Vaporizing e-cigarettes
- Hover boards
- Open element heating devices which include toaster-ovens, household electric grills/grilling equipment, toasters, electric frying pans, etc.

Students are permitted to maintain certain UL approved appliances in their residence hall's which are limited to UL approved coffee makers, UL approved popcorn poppers, and microwave ovens of 700 watts or less.

Certain food preparation items are permitted within the kitchen areas of residence hall apartments only, which are limited to UL approved appliances such as coffee makers, popcorn poppers, toasters, toaster oven, hot plates, electric grills/skillet, microwave ovens, crock-pots, rice cookers, vegetable steamers, and etc.

Along with candles, smoking is banned in all residence halls and apartments and within 25 feet of all campus buildings. The University smoking policy can be found at <http://policy.uconn.edu/2011/06/02/smoking/>. Also prohibited, are combustibles, flammable liquids such as: gasoline fuel, kerosene, propane, oil, open paints/thinners and sterno, and other easily ignitable substances, such as charcoal and vaporizing e-cigarette fluid. Charcoal or gas stoves (e.g., Coleman stoves, Hibachis, etc.) and/or lamps, gasoline motors of any type, including motorcycles and mopeds are prohibited.

In 2019, the University developed and implemented a new policy in the use of open flames, hot work, and other heat producing activities. This new policy requires students, staff, and faculty to seek approval and guidance from the University Fire Marshal or designee, prior to the use of such heat or flame producing equipment/process. Any use of open flames, hot work, pyrotechnic, or flammable gas flame displays not covered within a local department procedure shall be requested through, and approved by the University Fire Marshal and administered through the Office of the Fire Marshal and Building Inspector (Fire Marshal Unit) on a case by case basis.

The University Fire Marshal has administrative and statutory authority to order flames to be extinguished, or for hot work to be discontinued when these activities represent a danger to public safety, or that are not in administrative compliance with this policy. Such authorization to order extinguishment and/or discontinuance can be delegated to a designee within the UCFD or University Safety as needed. For more information about the use of open flames, hot work and other heat producing activities, follow this link: <https://policy.uconn.edu/2015/02/12/open-flame-policy/>

In 2023, the University developed and implemented a new policy restricting Lithium-ion Battery Powered Motorized Personal Transportation Vehicles within University Owned and/or Managed Buildings. This policy applies to all University students, staff, faculty, and visitors, and University-owned and/or managed buildings across all campuses and is enforced by the UConn Fire Marshal Unit/Fire Department, with the assistance of Facilities Operations.

UConn Fire Dept. along with mutual aid partners, conducted live fire training together at Eastern Fire School. The Command Team utilized a new incident command board recently acquired by UConn Fire Dept with great success.

The UConn FMU continues to work with Residential Life updating the On-Campus Housing Contract to ensure students are informed of fire safety requirements and expectations. The following is an excerpt from the On-Campus Housing Contract, which all residential students are responsible for:

9.5 EGRESS

Direct egress from the rooms, hallways, or stairwells may not be blocked. Student rooms should be arranged to permit direct access from all areas to the doorway. Obstructions like carpeting or rugs, behind the door shoe racks, tapestries or other materials hanging in the doorway or furniture should not deter egress from room or prevent the door from latching.

9.6 FIRE SAFETY

9.6.1 Residents found in violation of the following fire safety stipulations not only put themselves at risk but also jeopardizes the safety of the entire community.

9.6.2 Candles/Incense: Candles and/or incense are prohibited in all on-campus housing.

9.6.3 Combustibles: Combustibles, flammable liquids and substances of any type (e.g., fuel, kerosene, propane, oil, open paints/thinners, Sterno, charcoal) are prohibited. Charcoal or gas stoves (e.g. Coleman stoves, Hibachis) and/or lamps, gasoline motors of any type, including motorcycles and mopeds are prohibited. Motorcycles and mopeds cannot be kept inside facilities nor directly adjacent to facility entry ways. Art students (and others engaged in art projects) may retain small quantities of materials necessary for their work, providing these materials are kept closed when not in use and stored safely in a metal box. Deep frying, the cooking of food by submerging in deep fat or oil at a high temperature, is prohibited in all on-campus housing.

9.6.4 Failure to Evacuate: Immediate evacuation when an alarm sounds is mandatory and re-entry into a building before an alarm is silenced or staff authorization is given is prohibited.

9.6.5 Fire Safety Equipment: Intentional fire setting (Arson), tampering with, or misuse of fire safety equipment (including automatic door closures, smoke detectors, sprinkler heads, fire-alarm systems, fire-fighting equipment, or building security systems), including the covering or removal of smoke detectors, is illegal and prohibited.

9.6.6 Other Fire Hazards: The use of extension cords or multi-receptacle outlets with the exception of UL listed power strips with surge protectors is prohibited. UL listed power strips must be plugged directly into the wall. Storing items, including bicycles, in stairwells, hallway areas within the facility, along railings or other structures near the entry to the facility or on outside stairways, is prohibited.

9.6.7 Hoverboards/Electronic Personal Transportation Vehicles: electronic personal transportation vehicles (e.g., hoverboards, electric bicycles, electric motorcycles, electric scooters, electric skateboards, etc.) that use a rechargeable battery, cannot be charged, operated, stored, or used inside residence halls and all other University of Connecticut buildings, including dining halls.

9.6.8 Decoration Restrictions: Door and wall decorations may not restrict egress or cover more than half of each wall of the living space. Tapestries and/or room decorations affixed to or suspended from the ceiling are prohibited. Seasonal decorations (ie live trees) are prohibited.

Reference 2022-2023 On-Campus Housing Contract. The full contract can be found at the following link:

<https://reslife.uconn.edu/wp-content/uploads/sites/3384/2023/03/UConn-Reslife-Housing-Contract-2022-2023-.pdf>

Fire Safety Equipment

The intentional setting of fire, tampering with or misuse of fire safety equipment (e.g., automatic door closures, smoke detectors, sprinkler heads, fire-alarm systems, fire-fighting equipment, or building security systems) is prohibited and illegal, including the covering or removal of smoke detectors. For more information about Fire safety, following this link: <http://reslife.uconn.edu/wp-content/uploads/sites/1534/2016/02/Fire-Safety-07.21.20141.pdf>.

Fire Log

In accordance with the Clery Act, the UCFD maintains a Fire Log that provides a listing of all fires that have occurred in an on-campus student housing facility. Any portion of the Fire Log that is older than 60 days is made available within two business days of a request for public inspection. This Log is available at the UConn University Safety facility for public inspection and includes data for the most recent 60-day period. Print copies of the Fire Log and the Annual Security and Fire Report are available at the University Safety Complex, located at 126 North Eagleville Road, Storrs, CT. 06269, 24/7, or during business hours at our regional campus UConn Police Department locations. Please request these documents at the UConn PSAP. The print copies of the Fire Log are updated daily and contain the most recent disposition updates.

The Fire Log provides the following information:

- The nature of the fire
- The date the fire occurred
- The time of day the fire occurred
- The location of the fire

For questions about the Fire Log or for access to Fire Logs older than 60-days, please contact the Clery Compliance Coordinator at 860-486-4800.

UConn Fire Department 2018, 103-foot tower ladder

Emergency Response and Evacuation Procedures

As required by federal and state law, UConn has a comprehensive emergency operation plan that details immediate response and evacuation procedures. The emergency operations plan includes incident response procedures, priorities, shelter in place, and evacuation guidelines.

As part of the comprehensive emergency operations plan for the University, regularly scheduled drills, exercises, and follow-through activities are conducted annually. Minimally, tabletop exercises are conducted for various campus units identified as having emergency response responsibilities to test response and evacuations procedures. All exercises are documented and "after action" reports are completed as appropriate. As required by Federal law, the procedures to test emergency response and evacuation procedures will be tested annually and publicized to the UConn community. These tests may be announced or unannounced.

UConn police officers, firefighters, and supervisors are trained in the use of the National Incident Management System (NIMS) which includes the Incident Command System (ICS).

Each semester evacuation drills are coordinated by the UCFD in collaboration with University Residential Life to ensure emergency response and evacuation procedures are tested at least twice per year.

On a regular and ongoing basis, the UCFD conducts live fire training, with our mutual aid partners.

In this live fire training evolution, the important strategic goal of structure ventilation is being evaluated. A firefighter ascends the ladder truck to the roof of the structure where a hole is cut. Once the fire can vent out the roof, the conditions inside are improved, allowing the firefighters to work more efficiently.

Evacuation Procedures for Residence Halls

The following evacuation procedures are posted and reviewed by all occupants of each residence hall:

Upon hearing the sounding of fire alarm horns or seeing visual fire alarm strobes all residents and guests must ***immediately*** evacuate the building.

Procedures to follow if smoke detector activation occurs in your room only, with no other alarms sounding throughout the building.

If activation occurs and fire, smoke and/or a burning odor is present:

1. Upon hearing the sounding of fire alarm horns, all residents and guests must immediately evacuate the building.
2. Procedures to follow if smoke detector activation occurs in your room only, with no other alarms sounding throughout the building.

If activation occurs and fire, smoke and/or a burning odor is present:

1. Leave the room and close the door behind you.
2. Pull the fire alarm pull box located at the building exits.
3. Evacuate the building.
4. Call 911 to report the fire, or possible fire. Be prepared to give location, name, and phone number if possible.

If an activation occurs and there is NO evidence of any fire, smoke, and/or a burning odor:

1. Leave the room and close the door behind you.
2. Call 911 from a safe location to report, and then meet the responding Fire Department in a safe location outside of your room. Note: The UCFD responds to all fire alarms, including single smoke detector activation in a room whether or not the building fire alarm system is activated.
3. If you subsequently discover evidence of fire, smoke and/or burning odor, follow steps outlined in step 1.

If you subsequently discover evidence of fire, smoke and/or burning odor, follow above steps pertaining to evacuation upon detection of fire, smoke and or burning odor.

Emergency Evacuation for Students and Employees in Case of Fire

When exiting your room and the building:

1. If you are not in immediate danger from smoke or fire, make sure that you quickly dress appropriately for weather conditions (e.g., coat, shoes, etc.).
2. If you are not in immediate danger from smoke or fire, make sure to close and lock all doors and bring your room key and ID card with you.
3. Evacuate the building. If you are unable to evacuate, call 911 and give your name, location, and phone number.
4. Once safely outside the building:
 - Move away from building and immediately report to the designated assembly area to check in with residential life staff.
 - Stay clear of all emergency vehicles. Do not stand in roadway/walkway. Do not block emergency vehicles from getting through.
 - Do not re-enter the building until you are instructed to do so by an emergency responder or residential life staff.
5. Report any vandalized or disconnected smoke detectors to the hall director immediately. If one is found during a fire, or health and safety inspection, a work order will be submitted to correct the problem and disciplinary action may result.

What to Do in Case of a Fire

UPON HEARING THE SOUNDING OF AN ALARM: All residents and guests must immediately evacuate the building.

WHEN EXITING YOUR ROOM AND THE BUILDING:

1. Feel the door handle with the back of your hand, if door handle is not hot, open cautiously.
2. Check for smoke or fire before going out.
3. Make sure that you are dressed appropriately for weather conditions (i.e. coat, shoes, etc.).
4. Close and lock all doors. Bring your room key and ID card with you.
5. Walk quickly to the nearest marked exit.
6. Use the stairs. **NEVER USE ELEVATORS DURING AN EMERGENCY EVACUATION.**
7. Carry a towel with you to cover your face.
8. Stay low to the ground, below smoke. Crawl if necessary.

IF YOUR DOOR IS TOO HOT or IF THERE IS HEAVY SMOKE:

1. Do not open your door.
2. Wedge cloth around the door cracks and remain in the room.
3. Call 911.
4. Open the window wide enough to attract the attention of fire officials and await rescue.

ONCE OUTSIDE OF THE BUILDING:

1. Move away from building and immediately report to the designated assembly area to check in with Residential Life staff
2. Stay clear of all emergency vehicles – do not stand in roadway/walkway and block emergency vehicles from getting through.
3. Do not reenter the building until you are instructed to do so by an emergency responder or Residential Life staff.

Means of Egress

It is important that in cases of fire or emergencies, residents have a clear path from their room to outside of the building. Dorm room doors must not be blocked with furniture or other items that will not allow for at least 30 inches of clearance. Furniture, bicycles, or other items are not to be stored in corridors, stairwells, lounges, or lobbies, as these areas are typically the way out of a building in emergency situations.

Resident Hall and Complex Assembly Sites

Alumni Quad

- Eddy** -- evacuates to lawn between Watson and Belden
- Belden** -- evacuates to lawn between Watson and Belden
- Watson** -- evacuates to lawn between Watson and Belden

Apartment Complexes

- Mansfield Apartments** -- evacuates to the rear of each respective apartment
- Northwood Apartments** -- evacuates to rear lawn of their respective apartment
- Charter Oak Apartments** -- evacuates to front of their apartments
- Hilltop Apartments** -- evacuates to front of their apartments

Busby Suites

- 1st Floor – evacuates to front courtyard
- 2nd Floor -- evacuates to front courtyard
- 3rd Floor -- evacuates to front courtyard
- 4th Floor -- evacuates to front courtyard

East Campus Residence Halls

- Holcomb, Whitney, Sprague Halls** -- evacuates to sidewalks along Rte. 195 directly in front of their respective buildings
- Grange and Hicks Hall** -- evacuates to the center quad area in front of their respective buildings
- Buckley**
 - South Tower -- evacuates to parking lot directly behind their hall
 - North Tower -- evacuates to parking lot directly behind their hall
- Shippee** -- Evacuates between Shippee and the Bishop Center

Hilltop Residence Halls

Garrigus Suites

Basement Level -- evacuates to Putnam (grass area between Putnam & Garrigus)

1st Floor -- evacuates to Putnam (grass area between Putnam & Garrigus)

2nd Floor -- evacuates to Putnam (grass area between Putnam & Garrigus)

3rd Floor -- evacuates to Putnam (grass area between Putnam & Garrigus)

4th Floor -- evacuates to Putnam (grass area between Putnam & Garrigus)

Hale & Ellsworth Halls

Floors 1 - 8 -- evacuates to Putnam (grass area between Putnam & Garrigus)

Peter J. Werth Hall

Floors 1 - 8 -- evacuates to the North East side of the building

Husky Village (Greek Housing). Each house will evacuate to volleyball courts

HVA - Alpha Epsilon Phi, Kappa Alpha Theta

AVB- Gamma Phi Beta, Kappa Sigma

HVC - Sigma Phi Epsilon, Pi Beta Phi

HVD - Alpha Phi, Alpha Chi Omega

HVE - Beta Theta Pi, Tau Kappa Epsilon

HVF - Zeta Beta Tau, Alpha Epsilon Pi

North Campus Residence Halls

Hartford, New Haven, New London, Fairfield, Windham, Litchfield, Middlesex, Tolland, Hurley, Baldwin, McConaughy residences evacuate to inner quadrangle area.

Northwest Campus Residence Halls

Hanks, Goodyear, Russell, Batterson, Terry, and Roger evacuate to inner quadrangle area

South Campus Residence Halls

South A - Wilson Hall -- all residences evacuate to the quad in front of the building

South B - Rosebrooks Hall -- all residences evacuate to the quad in front of the building

South C - Snow Hall -- all residences evacuate to the West and North sides of the building

Nathen Inn Hotel - all residences evacuate from the exit stairs to the outside on all four sides.

Towers

Sherman, Jefferson, Sousa, Wade, Beecher, Allen, residents evacuate to inner courtyard of each building

West Campus

Alsop, Hollister, Shakespeare/Troy, Chandler/Lancaster -- evacuate to center of the west campus courtyard

McMahon

South Tower --

Floors 4 - 7 evacuates to lawn in front of building, southeast lawn

Floors 1 - 3 evacuates to corner of southeast lawn

North Tower --

Floors 4 - 7 evacuates to rear parking lot of Museum of Natural History

Floors 1 - 3 evacuates to rear parking lot of Museum of Natural History

Stamford Campus

Samford Resident Apartments

Rappawan Housing Apartments, 900 Washington Boulevard -- evacuate to the outer sidewalks.

Assembly Points are:

- 1) North Side of the building
- 2) On the sidewalk in front of the Stamford Government Center, 880 Washington Blvd.
- 3) Occupants are to avoid the inner quad parking area.

Lillian Housing Apartments, 87 Franklin Street-- evacuate to the outer sidewalks.

- 1) West Side of the building
- 2) Occupants are to avoid the inner quad parking area.

Fire Safety Education

Fire safety education programs for students living in on-campus student housing and employees that have any association with on-campus student housing are held at the beginning of each semester. These programs are designed to familiarize students and staff with the fire safety system in each housing facility, train students and staff on the procedures to be followed in case there is a fire and distribute information on the University's fire safety policies. Students are provided with maps of each on-campus student housing facility that illustrate evacuation routes and fire alarm equipment locations. During these programs, trainers emphasize that participating in fire drills is mandatory. Students with disabilities are given the option to have a "buddy" assigned to them. Fire safety education and training programs are taught by local fire authorities.

Fire safety and education is provided by members of the UCFD and the FMU. The following educational services are provided to University students and staff:

- Attendance at open houses and transfer student fairs for parents and students
- Provided brochures and handouts with fire safety messages and information about the UCFD and fire safety. In addition to the written publications, the UCFD has created several educational videos.
- Fire safety education and evacuation training for residential life staff
- Assembly "crowd management" training for Auditorium personnel and satellite campuses
- The UCFD presents a fire safety and education program for students during the First Year Experience (FYE).

The UCFD, working in conjunction with local Fire Marshals and Landlords, has developed an "Off Campus" housing policy that addresses fire safety.

UConn was recognized in 2020 as Connecticut's first HEART Safe Campus. The UCFD worked with the Connecticut Department of Public Health and the student group UConn Rescue to achieve this impressive goal.

Specific deliverables to achieve this goal were to install over 300 Automated External Defibrillators (i.e., AED) in cabinets throughout the University enterprise, along with Stop the Bleed Kits which were included within the cabinets. UCFD and UConn Rescue have provided, to date, 2,806 trainings to students, staff, and faculty in CPR and Stop the Bleed, and maintains the AED's and Stop the Bleed equipment.

The following is the link to the Fire Department's webpage regarding both topics.

<https://universitiesafety.uconn.edu/fire/universitypublicaccessaed/>

UConn also supports an application that can be installed on cell phones that will direct people to the closest AED and Stop the Bleed equipment. This application that can be found in the app store for (both android and apple) and is called: **PulsePoint AED**.

2021 Residential Fire Statistics: Storrs On-Campus Housing Facilities

Avery Point, Hartford Downtown, School of Law, UConn Health, Waterbury and Regional Campuses do not have on campus student housing.

University's Plans for Future Improvement of Fire Safety

- UConn's University Safety Division frequently updates its website with new fire safety information. It has been linked with the Office of Emergency Management and the Department of Residential Life websites, which includes fire safety and evacuation information that is updated on a regular basis.
- UConn Fire Marshal and Building Inspectors Office has implemented new Building and Fire Inspection software (CivicGov) which will better track, schedule, perform and report on fire safety inspections within the residential and non-residential area of the campus. In addition, the software allows for students, faculty, and staff to submit fire code questions and concerns (confidentially) to the FMU.
- UCFD continues to have a representative from the UConn Fire Marshal and Building Inspector's Office attend all the first-year student orientation sessions.
- UCFD is expanding its use of social media sites, such as Facebook and Instagram. UCFD has created unique video content to reach its target demographics.
- UCFD continues to explain the importance of fire safety to our students after each fire drill.
- UConn's University Safety Division is currently renovating the University Safety Building in Storrs to better serve the University community. This renovation will increase training and administrative offices/areas and opened in early 2023.
